Mission Statement

Voting

Donation

The website “Local Heros” is designed to get engagement from residents and businesses in the Twin Cities that support and promote local volunteerism. Each community will nominate a person or business that is working to improve their community through kind acts and volunteering in that community. The site will allow individuals to nominate and vote for the person or business they believe is adding the most value to their neighborhood. This website is being created for community members and businesses within the community to learn about and support the efforts of those that engage in volunteer activities, along with promoting opportunities to volunteer. It gives each community a place to recognize those that are making their community a better place to live, work, and play.
